

Sandvik TH430

Pure Performance

The Sandvik TH430 is a narrow 30 tonne underground mining truck that sets new standards in safety, reliability and productivity. Designed for service efficiency and maximum 'up-time', unsurpassed performance can be expected in medium sized operations, on the level or on grades up to 20%.

Key Features

- Smallest envelope in 30 tonne class provides high maneuverability.
- Low exhaust emission engines reduce ventilation requirements.
- VCM electronic control system for ease of operation and trouble shooting.
- 50/50 loaded weight distribution for smooth haulage.
- ROPS/FOPS certified, high comfort cabin for operator safety and performance.
